How prepared are you and your family?

Take a moment to consider these important questions about protecting the people and future that matter most.

- If something happened to you, how would your loved ones sustain themselves financially?
- If you became disabled, could you pay for long-term care without depleting your savings?
- Would your assets transfer seamlessly to your loved ones if something happened to you?
- Who would make financial and health-related decisions for you if you could not make them yourself?
- Would you be able to fund 25–30 years of retirement income in the most tax-efficient manner?

If you answered “No” or “Not sure” to any of these questions, look no further.

You're invited to a Financial Education Session designed to bring greater clarity to these important decisions.
